About Nanoforum

This Thematic Network funded under The European Fifth Framework Programme until 2006 will provide a comprehensive source of information on all areas of Nanotechnology to the business, the scientific and social communities. The main vehicle for the thematic network will be this dedicated website www.nanoforum.org. Nanoforum will encompass partners from different disciplines, bring together existing national and regional networks, share best practice on dissemination national, EU-wide and Venture Capital funding to boost SME creation, provide a means for the EU to interface with networks, stimulate Nanotechnology initiatives in European underdeveloped countries, stimulate young scientists, publicises good research and form a network of knowledge and expertise.

Nanoforum aims to provide a linking framework for all nanotechnology activity within the European Community. It will serve as a central location from which to gain access to and information about research programmes, technological developments, funding opportunities and future activities in nanotechnology within the community.

The Nanoforum consortium consists of
